Hi lan,

We have a revised estimate from Henry Beaver for a potential footbridge.

AIP	£	1,000.00
Design	£	5,000.00
Topo	£	2,000.00
GI	£	4,000.00
Bridge	£	27,000.00
Ramps	£	30,000.00
Foundation	£	30,000.00
Transport	£	4,000.00
Installation	£	10,000.00
Total	£	113,000.00

I sent a rough working drawing (shown below).

FoCW alternative Proposal for a Bridge Connecting Bishop Luffa School to their new Sports Field to Avoid Need to Divert the Last Half Kilometer of Centurion Way

The graphic above shows the side elevation of the bridge as it would be seen from the bridges south side with an observer looking northwards.

There is no consideration for piling (if needed) or drainage (also potentially a big problem if the level of the sports field is raised! However, it may be an interesting starting place for discussions with the school.

All the best,
Mark

If I understand your enquiry correctly you require a 19m bridge, on towers with stairs at each end?

- AIP - £1,000
- Design - £10,000
- Topo - £2,000
- GI - £4,000
- Bridge - £45,000
- Towers - £15,000
- Stairs - £30,000
- Mass concrete foundations (no allowance for piling) - £30,000
- Earth ramp to create access to bridge
- Transport to site - £8,000
- Installation - £15,000

Client to provide:

- All permits and consents
- Suitable access
- Path hook up
- Lighting etc etc

Thank you
